Our signature towers of stylish wedding cupcakes or tiers of mouth watering individually iced cakes are a spectacular and fun way to personalise your special day.

The essential top tier completes a sophisticated and stylish look and provides a fun photo opportunity of the happy couple as they cut their cake!

Handcrafted sugar versions of your bridal flowers - stunning orchids, roses and calla lilies are firm favourites to add beauty to this stunning centre piece.

The paper cased muffin sized cupcakes, topped with a sweet fondant icing are served to each guest, whilst the individual cakes are fully iced and can either serve one or two people.

Both options look fantastic when displayed on our specially designed cake stands, some of which can be trimmed with ribbon to match the colour theme of your special day.

The cakes can be gift boxed and tied with chiffon ribbon if required for an additional £2 per cake. This then makes a brilliant favour to be placed at each guests place setting or for the top table guests to take home if they are enjoying portions of the top tier cake.
